- Provisions for rooms during lodging in Raja Ampat are sharing with 1 room containing 2-3 people.
- For those who are vegetarian, hope to be able to bring their own food, and inform us so we can prepare in advance.

Raja Ampat Base knowledge :

- Raja Ampat is an isolated area, you need to prepare everything before heading to Raja Ampat as stated in the itinerary
- The food we provide is non-vegetarian food, if there are participants who are vegetarian, we will accommodate as much as possible.
- Wayag is king ampat's main icon in the form of a group of small island islands. To rise to the top, we need to climb about 15 minutes on a fairly steep cliff with coral rocks. The recommended age for riding is 15-45 years. Of course for those who are adventurous, the age of 80 years is sure to continue to rise. Please consult with us if you don't want it in Wayag, we can take you to Pianeymo or small Wayag, which is a small island group similar to Wayag, but wooden ladders are available so it's easy to go upstairs. But still Wayag is more beautiful than Pianeymo.
- The main transportation in Raja Ampat is speedboat because it is a small small island.
- Raja Ampat is quite hot, make sure your clothes are hot, and bring sunblock needed
